Automation Worksheet

Pick your first 3 automations. One that saves the most time, one that removes the most annoyance, and one that gets you paid faster. Fill this in, then set them up this week.

Automation 1 — saves the most time: what task?

Which workflow / script / template will you use?

How long does it take by hand today (minutes)?

Automation 2 — removes the most annoyance: what task?

Which workflow / script / template will you use?

Automation 3 — gets you paid faster: what task?

First step you will take today (one sentence):

Tip: run the first automation on a copy or small sample before using it on live data.
